DANIEL KAMWERU

Junior Software Developer

kamwerudaniel5@gmail.com | +254 723 832 126

LinkedIn   **GitHub**

PROFESSIONAL SUMMARY

Motivated Junior Software Developer currently training at Moringa School with a strong foundation in frontend and full-stack web development. Skilled in building responsive, user-focused applications using React and JavaScript. Passionate about technology, continuous learning, and solving real-world problems through clean, scalable code.

EDUCATION

Software Development
Moringa School
August 2025 – February 2026
Hands-on training in software engineering, frontend and backend development, APIs, and agile teamwork.

Kenya Certificate of Secondary Education (KCSE)
Baringo High School
2021 – 2024

TECHNICAL SKILLS

Frontend

- React
- JavaScript (ES6+)
- HTML5
- CSS3
- Tailwind CSS

Backend

- Node.js (Basic)
- RESTful APIs

Tools & Platforms

- Git
- GitHub
- Vite
- Figma
- JSON
- VS Code

Deployment

- Vercel

TECHNICAL & PROFESSIONAL INTERESTS

Software Development & Web Technologies | UI/UX Design and Frontend Innovation | Artificial Intelligence & Machine Learning Fundamentals | Open-Source Contribution | Hackathons and Coding Challenges

PROJECTS

Project Tracker Web Application

A collaborative task and project management web application for tracking progress and workloads.

Tech Stack: React, JavaScript, HTML, Tailwind CSS

Outcome: Improved task visibility and collaboration for team-based projects.
